Integrated pallet (pail+lid)	132	1200
Pail on pallet (1200x800)	154	1200
Lid (EK, L, M) in container on pallet (1200x800)	594	730

Information

Ergopac is built around an ergonomic idea that optimizes the packaging material all the way from manufacturing to final usage. The key component in the Ergopac system is a pail provided with a sealed lid that is easy to open and re-close. The sealed lid assures that the content of the pail stays fresh and untouched. If the seal is broken it will leave a clear visible signage. Ergopac is available in volumes up to 32 liters fitted into modules designed for EU pallets.
