

Quality Policy

To maintain high and stable quality levels in everything we do is prioritized for Emballator Mellerud AB. An active quality work is crucial for our and our customer's long-term development.

We shall through continuous improvements in our processes, products, services and management systems maintain a quality level that creates value for our customers and partners and always meet their demands and expectations.

This is done through:

- Standardized processes
- High and stable product quality
- High delivery performance
- High customer service level

It is the management's responsibility to ensure that we have:

- A well established and functional quality system
- Competent, committed and motivated employees
- Defined quality objectives that are continuously monitored and reviewed
