Twist off Recap

We are proud to introduce an innovative small dose tube where the integrated cap solution reduces the material content by 10%.

Our Twist off Recap tube has a unique closure with a tamper evident twist off cap which, with the unbroken seal, ensures the integrity of the product.

New innovative integrated closure

Tamper evident - safe for the consumer

Custom caps possible

30% lower cost*

Sustainability Features

100% Recyclable

50% post consumer rPP

Electricity from 100% renewable sources

16% less CO2 emissions*

Up to 10% less weight - saving in material

Made from mono-material

Technical Information

	Cap Style	Diameter (mm)	Length Sleeve (mm)	Volume (ml)
	Conic	19	60	5 - 7
	Full	19	60	5 - 7
	Conic	19	85	10 - 15
	Full	19	85	10 - 15
	Full	25	85	20 - 25
	Full	25	115	30 - 40

LCA

Example: Diameter 19 mm

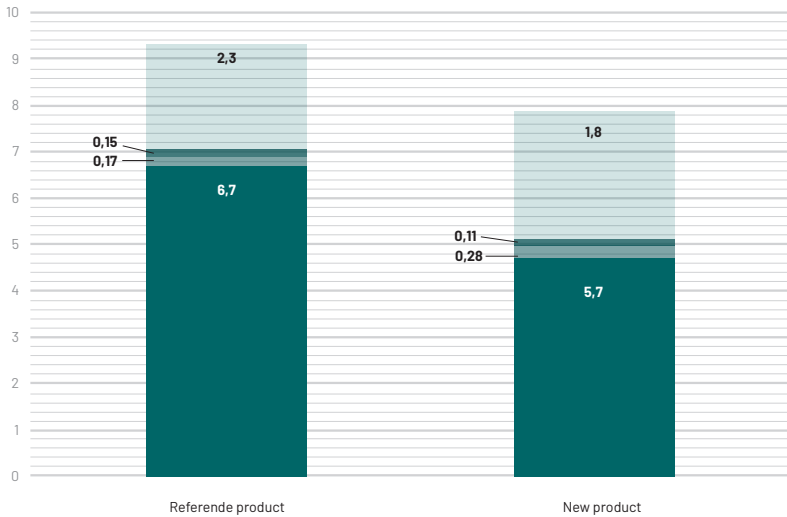

Reference product: Extruded tube with screw cap (weight: 3,4 gram).

New product: ReCap (weight: 3 gram).

% CO₂ change new Product vs Reference product Cradle to filler

Carbon footprint comparison Cradle to filler

Transport to filler	2,3	1,8
Converter production	0,15	0,11
Transport to factory	0,17	0,28
Raw material	6,7	5,7

Logistic routes calculated from Swedish sites to filler in France.
